Turbo protect

Ref. 3216B

12x300ml

USE

Bardahl Turbo Protect is an engine oil additive which contains a unique formula made of FULLERENE and POLAR PLUS molecules, that protects and covers the turbo and engine metal parts with an unbreakable, anti-friction and pressure-resistant film.

Suitable for any type of engine (diesel, petrol, LPG) and any type of engine oil (mineral, semi-synthetic, synthetic or 100% synthetic).

Compatible with catalytic converters.

PROPERTIES

BARDAHL TURBO PROTECT has the following properties:

- Lubricates and protects the turbo and the engine at cold starting.
- Lubricates and protects the turbo and the engine when the oil level is too low.
- Protects the turbo and the engine against oil oxidation.
- Does not clog the oil filter.
- Active for 10.000 kilometers.

INSTRUCTIONS FOR USE

Pour the contents of the bottle into the engine oil when changing oil or in between two oil changes.

1 can treats up to 6 liters of oil.

For racing use, use 2 cans.

PHYSICAL & CHEMICAL PROPERTIES

Physical state	Liquid
Colour	Brown
Flash point	> 61 °C
Viscosity	> 7 mm ² /s (40°C)
Relative density	0.955
